## Profile

I am currently looking for new career opportunities whilst continuing to study part time for my degree in BSc (Honours) Computing & I.T. and Statistics. I am committed to personal and professional development with a passion for independent learning. My work ethics can be best described as focused, adaptable, creative and a team player with an eye for detail but who can also deliver on an independent level. In my previous roles I have developed excellent time management and problem-solving skills. I am meticulous in every task I perform whilst meeting strict deadlines, policies and procedures.

## Skills

- **Programming Languages:** Java, JavaScript, Python, HTML, CSS.
- **Frameworks, Tools & Libraries:** React, Node.js, Express, Git, GitHub, Pandas.
- **Databases:** MongoDB, mySQL.
- **Industry Knowledge:** Object-Oriented Programming (OOP), Agile.

## WORK HISTORY & EXPERIENCE

### Codenation

February 2021 to May 2021

12-week Master coding bootcamp course

- Fundamental coding principles using JavaScript
- Core client-side web technologies - HTML & CSS
- Modern JavaScript UI libraries - React.js
- Server-side programming using JavaScript/Node.js and NPM.
- Working with databases such as MySQL and MongoDB.
- Full stack web application development
- Working in an Agile environment with Kanban, timesheets & Trello
- Lifecycle of a technical project

### Production Operative | Proactive Personnel Ltd Alcohol Solutions Ltd

September 2020 to December 2020

Alcoholic beverage production company

#### Roles
